

Our brief student climate survey gives you a snapshot of how students see the conditions of learning

HOW DOES THE CLIMATE SURVEY WORK?

Students answer six questions about key dimensions of school climate—sense of safety, belonging, and instructional support—at the end of their SELweb administration.

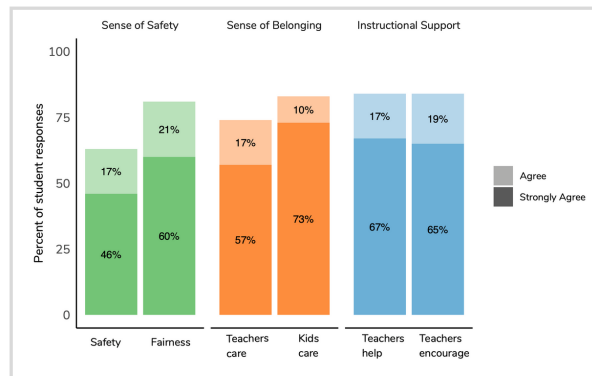

HOW DOES THE CLIMATE SURVEY COMPLEMENT SELweb?

SEL program and practices are designed to impact student competencies but also conditions for learning, which this survey measures.

HOW CAN THE CLIMATE SURVEY SUPPORT EDUCATIONAL PRACTICE?

Use this data to understand and address climate issues, which also relate to academic and SEL outcomes.

WHAT DO THE CLIMATE SURVEY REPORTS INCLUDE?

Reports are web-based and graphs show percentage of students that have endorsed items on the climate scale. Results are presented at the school and grade level with darker color indicating stronger endorsement.
